

TESTOMINIALS

Thank you for being a part of Pioneer Library System's very successful summer. As a part of preparation for SRP 2013, I would like to know more about your impression of and experience with Pioneer Library System this year.

Thank you for a GREAT party!!! The boys had a blast and played A LOT of games!! Love it at night! ... until next year for sure!

We had a great time! The guy that did our party is a very nice and polite young man. Our kids had a Blast and I'm sure we will be using you again soon.

The party was great; we all had a lot of fun! Before bed that night my son told me thank you for the "Best Birthday party ever!" I found out about your company through an online search for "Okc Laser Tag". Everyone at the party asked about the company & how I found about your services. So hopefully that will help generate some more business, everyone thought it was a really cool idea. Also, the young Man who brought the equipment out was very nice & professional. He was so patient & helpful with the children. He needs a raise. Thank you for everything.

Everyone had a great time at the party. My son said everybody was talking about it the next day. I heard about you from another mom, she used you at a birthday party. I will definitely recommend you to other people. Thank you, Jill

I really appreciate your taking the time to remember us! We had a blast and so did Jacob. It will be a party to remember! I rated you on a site and gave you a rating of A+. I really appreciate all the time you took being patient with the kids. You were awesome. If you need a reference you can give my info and I will give a wonderful evaluation.

Kids loved it. I heard "best soccer party ever!" many times. Several have asked for your contact info for birthday parties etc... It is hard to find activities that are exciting for teens and they really enjoyed this.

I am the Children's' Ministry Leader at a church in Anadarko, Oklahoma. I was thrilled at the prospect of having Mobile Laser Forces be a part of our "Fun Night Extravaganza on Friday October 31, 2008. The setup of the laser course was picturesque with the bunkers and strobe light background. The kids were blown away! Although the laser tag station was not our only activity for the night, some of the children never knew we had more to offer. They never left the laser tag station. As the night was coming to a close I happen to walk upon a father standing in the laser station waiting for his son. He told me that whole family was in the car waiting for the son to finish with the laser tag. The dad really had a hard time pulling his son away. My pastor told me weeks after that he was still getting compliments for the night from families in our community. Several kids have asked when we are doing it again. A great deal of thinks goes to Mobile Laser Forces. I'm sure MLF will have several birthday parties on their schedule in the Anadarko area. You guys "rock"!!!
